MARKETING NOTES

• Get There First Realty Services was recently awarded the Certified Residential Management Company designation from the National Association of Residential Property Managers. Only four other companies in the country have qualified for this designation, which required an onsite audit of its management

systems and a detailed policy and procedure system in place.

"The best total package in owning residential rentals must include competent management," says Mark Kreditor, president and broker of Get There First Realty. His firm has been active in rental property management for well over 15 years and manages over 700 rental properties.

Former Resident's Realty Firm Awarded

Get There First Realty Services, headquartered in Dallas, Texas, was recently awarded the prestigious Certified Management Company designation from the National Association of Residential Property Managers for exemplary business policy and procedure. The designation was the first to be awarded in North Texas and only the fourth in the country.

The president of Get There First is former Hicksville resident Mark Kreditor whose firm has been active in rental property management for well over 15 years and manages over 700 rental properties.

"We are very proud to join a very elite group of residential real estate firms while serving the needs of our clients who own rental properties," said Kreditor who established GTF in 1981. "As president and founder of Get There First Realty I have been very active not only in the real estate community but in the Dallas business community as well."

Kreditor has served as the chairperson of the Leasing and Property Management Committee of the Greater Dallas Associa-

tion of Realtors and is a featured lecturer with the organization. His real estate investment classes have been taught to capacity crowds at Southern Methodist University for years.

He is also the proud recipient of the prestigious Master Property Manager designation awarded by NARPM which is held by fewer than 40 property managers nationwide. He has served on NARPM's National Board of Directors since 1993 and is slated to become the association's national president in September of this year.

Throughout all of his accomplishments in the Southwest, however, Mark Kreditor has always kept a piece of Hicksville in his heart, attributing his business savvy to his experience in Hicksville schools.

"Hicksville will always be home for me," said Kreditor whose mother, Marlene, taught in the Hicksville Public Schools for over 30 years. "My teachers were my mentors and not a day goes by that I don't think of them and how they shaped me in business."
